

THE EMBODIMENTS OF THE INVENTION IN WHICH AN EXCLUSIVE PROPERTY OR PRIVILEGE IS CLAIMED ARE DEFINED AS FOLLOWS:

- 8/7
a1
1. A grille for security institutions, comprising:
 - a. a body having two opposed faces;
 - b. at least one passage extending through the body between the opposed faces, the at least one passage having at least two changes in direction defining a generally zig zag course such that when rope-like suspension means are inserted into the passage the series of direction changes severely limit the ability of a person to thread the rope-like suspension means through the passage.
 2. The grille as defined in Claim 1, the cross-sectional area of the at least one passage being in the form of an elongate slot, thereby severely restricting the shape of object that can be inserted into the passage and the ability of a person to lodge such object transversely in the passage.
 3. The grille as defined in Claim 1, the cross-sectional dimensions of the at least one passage being in the form of a circle, thereby severely restricting the shape of object that can be inserted into the passage and the ability of a person to lodge such object transversely in the passage.
